REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

April 17, 2020

The Board of Directors Cotton Ranch Metropolitan District

We have audited the accompanying financial statements of the governmental activities, the business-type activity, and each major fund of Cotton Ranch Metropolitan District as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activity, and each major fund of Cotton Ranch Metropolitan District, as of December 31, 2019, and the respective changes in financial position, and where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Board of Directors Cotton Ranch Metropolitan District Page Two

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Cotton Ranch Metropolitan District's basic financial statements. The Debt Service Fund and Proprietary Fund budgetary schedules and the property tax statistical schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The property tax statistical schedule has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Chadwick, Steinhirchner, Davia & Co. P.C.

This management's discussion and analysis of the Cotton Ranch Metropolitan District's financial statements provides an overview of the District's financial activities for the fiscal year ended December 31, 2019. The intent of this discussion and analysis is to look at the District's financial performance as a whole; it should be read in conjunction with the basic financial statements and notes to enhance the reader's understanding of the District's overall financial performance.

Using the Basic Financial Statements

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two types of information on the same statement that present different views of the District:

- Government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- Fund financial statements that focus on individual parts of the District government, reporting the District's operations in more detail than the government-wide statements.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Additional supplemental information has also been included to enhance the reader's understanding of the financial statements.

Government-wide Financial Statements

The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities. These statements report information about the District as a whole and include *all* assets, liabilities, and deferred inflows of resources using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in net position. The District's net position – the difference between assets, deferred outflows, liabilities, and deferred inflows – is one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position is one indicator of whether its *financial health* is improving or deteriorating. Other non-financial factors, however, such as changes in the District's property tax base and the condition of the infrastructure, are needed to assess the *overall health* of the District.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant funds – not the District as a whole. The District's major governmental funds include the General Fund and the Debt Service Fund. Unlike government-wide financial statements, the focus of the fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the General Fund, a

specific fund is established to satisfy managerial control over resources or to satisfy financerelated legal requirements established by external parties or governmental statutes or regulations.

Governmental funds – The District's activity is reported as a governmental fund, which focuses on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. The funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial* assets that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is provided in reconciliations following the fund financial statements.

Reporting on the District as a Whole

Statement of Net Position

The perspective of the Statement of Net Position is of the District as a whole. Following is a summary of the District's net position for fiscal years 2019 and 2018.

		2019			2018	
	Governmental	Business-type		Governmental	Business-type	-
Assets:	Activities	Activities	Total	Activities	Activities	Total
Current assets	1,041,285	210,492	1,251,777	940,518	201,965	1,142,483
Capital and non-current assets	0	559,596	559,596	0	547,771	547,771
Total Assets	1,041,285	770,088	1,811,373	940,518	749,736	1,690,254
Deferred Outflow of Resources: 2017 Note	54,003	0	54,003	58,157	0	58,157
Total Deferred Outflows of Resources	54,003	0	54,003	58,157	0	58,157
Liabilities:						
Current liabilities	44,486	14,580	59,066	34,831	4,580	39,411
Long-term liabilities (including current portion)	9,375,740	0	9,375,740	9,612,882	0	9,612,882
Total Liabilities	9,420,226	14,580	9,434,806	9,647,713	4,580	9,652,293
Deferred Inflow of Resources: Property Taxes	664,744	0	664,744	588,534	0	588,534
Total Deferred Inflows of Resources	664,744	0	664,744	588,534	0	588,534
Net Position:						
Net investment in capital assets	0	559,596	559,596	0	547,771	547,771
Restricted for emergencies	638	0	638	624	0	624
Restricted for conservation turst activities	37,090	0	37,090	28,108	0	28,108
Restricted for debt service	232,898	0	232,898	229,967	0	229,967
Unrestricted	(9,260,308)	195,912	(9,064,396)	(9,496,271)	197,385	(9,298,886)
Total Net Position	(8,989,682)	755,508	(8,234,174)	(9,237,572)	745,156	(8,492,416)

The District shows a substantial negative balance in net position. This deficit balance is the result of the District issuing bonds to pay for infrastructure and then conveying that infrastructure to the Town of Gypsum for the Town's ongoing operation and maintenance for the benefit of the District's and Town's constituents. The most significant items on the statement of net position are the long-term liabilities and these are described in more depth in *Note C*.

Statement of Activities

The perspective of the Statement of Activities is of the District as a whole. The statement of activities reflects the cost of program services and the charges for services and sales, grants and contributions offsetting those services. The following detail reflects the total cost of services supported by program revenues and general property taxes, as well as other general revenues, resulting in the overall change in net position for the fiscal years 2019 and 2018.

		2019		2018				
	Governmental	Business-type	-	Governmental	Business-type

Total expenses	395,941	135,379	531,320	374,883	149,066	523,949		
Increase in net position before transfers	247,890	10,352	258,242	229,760	(3,906)	225,854		
Transfers	0	0	0	0	0	0		
Change in net position	247,890	10,352	258,242	229,760	(3,906)	225,854		
Net position January 1	(9,237,572)	745,156	(8,492,416)	(9,467,332)	749,062	(8,718,270)		
Net position December 31	(8,989,682)	755,508	(8,234,174)	(9,237,572)	745,156	(8,492,416)		

The District's primary source of revenues is property taxes, while secondary revenue sources are water user fees (which are reflected as charges for services) and tap fees (which are reflected as capital grants and contributions). These revenues are used to pay the cost of the general government, the cost of the irrigation water activity expenses, and to pay the District's debt service.

The District operated at a surplus of revenues over expenses in 2019. This surplus is primarily the result of levying property taxes that are used to repay debt service principal which is not treated as an expense and results in a surplus of revenues over expenses. Some of the District's bond agreements require the District to pay the debt service principal and interest annually and all mandatory bond payments have been made. The District's other bond agreements only require the District to pay the debt service principal and interest as the District has the funds available from property taxes generated by the District. The unpaid interest expense has been accrued and will be paid at such time that the District has the funds available or if funds are not available to make these

payments by certain future dates, then the obligation to pay the debt service is cancelled. *Note C* explains these provisions of the District's long-term debt obligations in greater detail.

The District's Funds

The fund level financial statements focus on how services were financed in the short-term as well as what remains for future spending. The fund level financial statements are reported on the modified accrual basis of accounting.

At the fund level, under the modified accrual basis of accounting, depreciable assets and their related depreciation expense are not reflected as they are not a current period financial resource or use. In addition, at the fund level, inflows from operating loans are presented as a source of funds while outflows for capital outlay and debt service payments are presented as an expenditure item, as these items represent current period financial resources and uses.

The District experienced a moderate increase in fund balances in the Governmental and Proprietary Funds for 2019 because revenues during the year exceeded expenditures. This surplus will be set aside in a reserve to be used for future years' expenditures.

General Fund Budgetary Highlights

The District's procedures in establishing budgetary data reflected in the financial statements are summarized in *Note A* of the financial statements. Details of the General Fund budget can be seen on Page 14 of the financial statements.

General Fund Resources (Inflows)

The District's final General Fund actual revenues and other financing sources in the amount of \$30,232 exceeded the final budget of \$30,225.

General Fund Charges to Appropriations (Outflows)

The District's final budgetary expenditures and other financing uses of \$19,387 were \$935 less than the final appropriated balance of \$20,322.

Capital Assets

At the end of 2019, the District didn't have any funds invested in governmental activities capital assets and had \$559,596 invested in business-type activities capital assets. See Note D, Capital Assets.

Debt Administration

In 2019 the District issued \$805,000 in bonds to refund a portion of the subordinate bonds that converted to unlimited tax general obligation bonds during 2019 as a result of the increase in the District's assessed value during 2019. This bond refunding reduced the District's debt service payments over the next 16 years by \$239,000 resulting in a present value savings of \$190,836.

At December 31, 2019, the District had \$9,375,739 of long-term obligations outstanding. See *Note C, Long-term Debt* for a detail of the terms and annual requirements to amortize the District's long-term debt.

Economic Factors and Next Year's Budget

During 2020 there was a worldwide pandemic from the Coronavirus. It is anticipated COVID-19 will have impacts on the economy as a whole which will include financial impacts to the District, however the extent of such impact is unknown at this time.

Contacting the District's Financial Management

This financial report is designed to provide our residents, customers, taxpayers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions regarding this report or need additional financial information, please contact the:

Cotton Ranch Metropolitan District Manager C/o Marchetti & Weaver, LLC 28 Second Street, Suite 213 Edwards, CO 81632

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year ended December 31, 2019		
Amounts reported for governmental activities in the Statement of Activities are different because:		
Net Change in Fund Balances - Governmental Funds	\$	13,776
Governmental funds report the the repayment of principal on long-term debt as expenditures. However, these repayments are not reported as expenses in the Statement of Activities, but rather a reduction of debt in the Statement of Net Position. This amount is the difference in the treatment of these repayments.	÷	1,190,000
in the treatment of these repayments.		1,190,000
Governmental funds report the the proceeds from debt as revenues. However, they are not reported as revenues in the Statement of Activities, but rather as additions of debt in the Statement of Net Position. This amount is the difference in the treatment of these proceeds.		(805,000)
Governmental funds do not record the amount of interest and fees on long-term debt that has accrued since the end of the year. However, these liabilities are reported in the Statement of Net Position and the related expense is reported in the Statement of Activities. This is		(150,996)
the amount by which accrued interest and fees increased over the prior year.		(150,886)

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Organization

Cotton Ranch Metropolitan District (the District) is a quasi-municipal corporation and is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Eagle County, Colorado. The District was established to provide roads, drainage, landscaping, water, sewer and recreation. The District will retain the assets and provide service for the non-potable irrigation system. Roads, drainage, potable water system, sewer system and landscaping assets have been deeded to and maintained by the Town of Gypsum.

The District has no employees and all operations and administrative functions are contracted.

2. Reporting Entity

The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations which are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity.

Based on the criteria above, the District is not financially accountable for any other entity, nor is the District a component unit of any other government.

3. Government-wide and Fund Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. Currently, the District has both governmental and business-type activities.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Government-wide Financial Statements

In the government-wide Statement of Net Position, the governmental activities column is reported on a full accrual, economic resource basis, which recognizes all long-term assets, receivables and deferred outflows of resources as well as long-term debt, obligations and deferred inflows of resources. The District's net position is reported in four parts: net position restricted for debt service, net position restricted for emergencies, net investment in capital assets, and unrestricted. The government-wide focus is on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures/expenses.

The fund focus is on current available resources and budget compliance.

4. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. At this time the District uses governmental funds and a proprietary fund.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, deferred outflows of resources, liabilities and deferred inflows of resources is reported as fund equity.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The District reports the following major governmental funds:

General Fund – The General Fund is used to account for all financial resources of the District except those required to be accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Colorado and the bylaws of the District.

Debt Service Fund – The Debt Service Fund accounts for the servicing of long-term debt including long-term contractual obligations approved by the District's electorate and revenues generated by property taxes that are required to be used in payment of such long-term debt and contractual obligations.

Proprietary Fund

Enterprise Fund – The Enterprise Fund accounts for operations that are financed and operated in a manner where the intent of the District is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the District has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. Operating revenues and expenses for enterprise funds are those that result from providing services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

For purposes of the statement of cash flows, the District considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

5. Measurement Focus and Basis of Accounting

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements.

Long-Term Economic Focus and Accrual Basis

Governmental activities in the government-wide financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Current Financial Focus and Modified Accrual Basis

The governmental fund financial statements use the current financial focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days of year-end. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, if any, is recognized when due.

The accrual basis of accounting is utilized in the proprietary fund type. Revenue is recognized when earned and expenses are recognized when the liability is incurred. Depreciation is computed and recorded as an operating expense and expenditures for property and equipment are shown as increases in assets.

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.

6. Government-wide Net Position

- Net investment in capital assets—consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.
- Restricted net position—consist of assets that are restricted by the District's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors (those who may donate to the District less related liabilities and deferred inflows of resources).
- Unrestricted—all other net position is reported in this category.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

7. Governmental Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

- Non-spendable fund balance The portion of fund balance that cannot be spent because it is either not in spendable form (such as inventory) or is legally or contractually required to be maintained intact.
- Restricted fund balance The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.
- Committed fund balance The portion of fund balance constrained for specific purposes according to limitations imposed by the District's highest level of decision making authority, the Board of Directors, prior to the end of the current fiscal year. The constraint may be removed or changed only through formal action of the Board of Directors.
- Assigned fund balance The portion of fund balance set aside for planned or intended purposes. The intended use may be expressed by the Board of Directors or other individuals authorized to assign funds to be used for a specific purpose.
- Unassigned fund balance The residual portion of fund balance that does not meet any of the above criteria. The District will only report a positive unassigned fund balance in the General Fund.

8. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as contributions awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available.

9. Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

10. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or non-routine permanent transfers of equity and other interfund transfers are reported as transfers.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

11. Property Taxes

Property taxes are not due and payable until after the assessment year has ended, and are not included in the budget or Statement of Revenues, Expenditures, and Changes in Fund Balance of the assessment year. Property taxes are recorded as deferred inflow of resources in the year they are levied and measurable. Property tax revenues are recorded as revenue in the year they are available or collected. Property taxes are levied on or before December 15 of each year and attach as an enforceable lien on the property on January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15.

12. Stewardship, Compliance, and Accountability

Budgets and Budgetary Accounting

In the fall of each year, the District's Board of Directors formally adopts a budget with appropriations by fund for the ensuing year pursuant to the Colorado Local Budget Law. The budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles ("GAAP"). As required by the Colorado statutes, the District followed by the following timetable in approving and enacting a budget for the ensuing years:

- (1) For the 2019 budget year, prior to August 23, 2018, the County Assessor sent the District the assessed valuation of all taxable property within the District's boundaries.
- (2) On or before October 15, 2018, the District's accountant submitted to the District's Board of Directors a recommended budget which detailed the necessary property taxes needed along with other available revenues to meet the District's operating requirements.
- (3) The Board held a public hearing on the proposed budget and capital program no later than 45 days prior to the close of the fiscal year.
- (4) For the 2019 budget, prior to December 15, 2018, the District computed and certified to the County Commissioners a rate of levy that derived the necessary property taxes as computed in the proposed budget.
- (5) For the 2019 budget, the final budget and appropriating resolution was adopted prior to December 31, 2018.
- (6) After adoption of the budget resolution, the District may make the following changes: a) it may transfer appropriated monies between funds or between spending agencies within a fund, as determined by the original appropriation level; b) supplemental appropriations to the extent of revenues in excess of those estimated in the budget; c) emergency appropriations; and d) reduction of appropriations for which originally estimated revenues are insufficient.

The level of control in the budget at which expenditures exceed appropriations is at the fund level. All appropriations lapse at year end. There was one supplemental appropriation during 2019.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

13. Capital Assets

Capital assets, which include construction in progress, are reported in the applicable governmental activities columns in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are completed.

Depreciation is computed using the straight-line method over estimated useful lives, as follows:

	<u>Estimated Lives</u>
Buildings and improvements	20 to 40 years
Infrastructure	30 to 40 years
Equipment and machinery	5 to 15 years

NOTE B – EQUITY IN POOLED CASH AND INVESTMENTS

The District maintains a cash pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position as "Equity in pooled cash."

Deposits

As of December 31, 2019, the carrying amount of the District's deposits was \$59,844 and the bank balance was \$60,122. All of the bank balance was covered by federal depository insurance.

Statutes require that any public depository which accepts and holds public funds maintain, as security for public deposits accepted and held by it, not insured by federal depository insurance, eligible collateral having a market value, at all times, equal to at least 102 percent of the amount of public deposits. Banking institutions are monitored by the State of Colorado Banking Commission and must report monthly on all public deposits held. Pledged collateral must be held in joint custody of the bank and of the Public Deposit Protection Act in a safekeeping account held by a third party, usually the Federal Reserve Bank. The pledge collateral cannot be released unless approval is obtained by the banking commission. Savings and Loan institutions are monitored by the State of Colorado Commissioner of Savings and Loan Associations and must report quarterly on all public deposits held. Pledged collateral, usually in the form of mortgages, must be held by a third party institution for the benefit of the commissioner.

As of December 31, 2019, the District had \$14,580 in deposits received from contractors which is shown as restricted cash.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE B – EQUITY IN POOLED CASH AND INVESTMENTS – CONTINUED

Investments

Colorado state statutes authorize the District to invest in U.S. Treasury bills, obligations of any other U.S. agencies, obligations of the World Bank, general obligation bonds of any state or any of their subdivisions, revenue bonds of any state or any of their subdivisions, bankers acceptance notes, commercial paper, repurchase agreements, money market funds and guaranteed investment contracts. All investments must be held by the District, in their name, or in custody of a third party on behalf of the local government.

The District had invested \$505,762 in the Colorado Local Governmental Liquid Asset Trust, (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. A designated custodial bank provides safekeeping and depository services to Colotrust in connection with the direct investment and withdrawal functions of Colotrust. Substantially all securities owned by Colotrust are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by Colotrust. Colotrust funds carry a Standard & Poor's AAAm rating. There is no custodial, interest rate or foreign currency risk exposure. Colotrust operates like a 2a-7 external investment pool and investments in the pool are valued at \$1 net asset value (NAV) per share. The underlying investments held by Colotrust are valued at fair value.

A reconciliation of the carrying value of deposits and investments reported above to the Statement of Net Position as of December 31, 2019 is as follows:

Deposits	\$ 59,844
Investments	505,762
Total equity in pooled cash and investments	\$ 565,606

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE C – LONG-TERM DEBT

	<u>\$ 9,612,882</u>	<u>\$ 952,857</u>	\$ 1,190,000	<u>\$ 9,375,739</u>	<u>\$ 370,000</u>	

The detail of the District's governmental activities long-term obligations is as follows:

\$3,485,000 Subordinate Junior General Obligation Limited Tax Refunding Bonds, Series 2002A, dated December 24, 2002, with interest of 2.9% to 5.95% consist of term bonds due December 15, 2035. During 2002, these bonds were exchanged for the tender and cancellation of the District's 1999B Bonds. The Bonds were refunded to lower the interest rates on the bonds, extend the maturity dates and change the conversion ratio to general obligation bonds. These bonds were issued to the Developer.

Pursuant to the Bond Resolution, the District shall convert the Series 2002A Subordinate Junior General Obligation Limited Tax Refunding Bonds to General Obligation Bonds when the ratio of general obligation debt to certified assessed value of the District is less than or equal to thirty-five percent. The mill levy imposed for the payment of debt service on the bonds shall not be less than thirty-five (35) mills to be Gallagherized and not to exceed fifty (50) mills. Any monies on deposit in the bond fund which are available for payment of the bonds (which are not converted bonds) and any other obligations which have a parity lien on the District's revenues pledged for repayment of the bonds shall be applied in the following order of priority (as more fully described in the bond resolution):

- 1. to the payment of unpaid interest on the bonds
- 2. to the payment of unpaid principal on the bonds
- 3. to the payment of current interest
- 4. to the payment of current principal

Thereafter, the balance of any monies in the bond fund, if any, shall be applied to the optional redemption of converted bonds.

NOTES TO FINANCIAL STATEMENTS

Remaining Authorized but Unissued Indebtedness and Obligation to Issue Future Bonds. The District held elections in 1994, 1996, 1998, and 2006 at which a majority of the qualified electors of the District authorized the issuance of indebtedness. A portion of the debt authorized in the 1994 election was rescinded in the 1998 election. And while the 2006 election increased the maximum repayment cost of the indebtedness under the 1994 election, it did not authorize any new indebtedness. Bonds were issued in 1998 that fully used the remaining debt authorized in the 1994 election.

The 1996 election authorized the issuance of \$5.5 million of debt. Bonds were issued using \$3.126 million of this authorization. In the 1998 election the electors of the District authorized the issuance of \$3.8 million of debt to be used for streets improvements and \$500,000 for sewage facilities, total \$4.3 million. The District has used \$359,000 of the 1998 amount authorized for street improvements, but hasn't used any of the 1998 authorization for sewage facilities. The District's legal counsel has advised that the remaining voter authorized debt from the 1996 and 1998 elections has become stale and is likely unusable.

Depreciation expense for the year ended December 31, 2019 was \$13,625.

NOTE E - RELATED PARTY TRANSACTIONS

A company owned by a current board member was paid \$60,134 in 2019 for services provided in relation to the irrigation system. \$0 was owed to this board member's company as of December 31, 2019.

The 2002A bonds were originally issued to the Cotton Ranch developers to reimburse them for infrastructure costs which they incurred in developing Cotton Ranch. One of the Developers owned a \$745,000 bond that was a portion of the 2002A bonds and was interested in selling this bond in 2017. The District's accountant and administrator, Ken Marchetti, purchased that bond from the developer including all prior unpaid interest associated with the bond. As a subordinate bond, no interest is currently being paid on this bond, but the bond interest (and principal when applicable) will be payable when the District has funds available from property taxes collected from the debt service mill levy after all required payments for unlimited tax bonds have been paid. This bond is eligible to convert to unlimited tax status when the ratio of general obligation debt to certified assessed value of the District is less than or equal to thirty-five percent. This occurred in 2019 and principal and interest will begin to be paid June 1, 2020.

Mr. Marchetti also purchased the prior unpaid interest associated with a portion of the 2010 Converted Bonds from another developer during 2017.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE F - COMMITMENTS AND CONTINGENCIES

During the normal courses of business, the District may incur claims and other assertions against it from various agencies and individuals. Management of the District and their legal representatives have disclosed that they are not aware of any material outstanding claims against the District at December 31, 2019.

NOTE G – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God. The District has elected to participate in the Colorado Special District Property and Liability Pool (the Pool), which is sponsored by the Special District Association of Colorado. The Pool provides property and general liability, automobile physical damage and liability, public official's liability and machinery coverage to its members. Members of the Pool are required to make additional surplus contributions. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula. During the year ended December 31, 2019 the Pool made no distributions to the District.

Condensed financial statement data for the Colorado Special Districts Property and Liability Pool as of December 31, 2018 (latest information available) is as follows:

	Colorado Special Districts Property and Liability Poo		
Assets	<u>\$</u>	63,918,422	
Liabilities Surplus	\$ <u>\$</u>	39,345,647 24,572,775 63,918,422

NOTE H – TABOR AMENDMENT

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations which apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that of the prior year, extension of any expiring tax, or tax policy change directly causing a new tax revenue gain to any local government. Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple fiscal year or other financial obligation unless adequate present cash reserves are pledged irrevocable and held for payments in future years.

TABOR also requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be 3% or more of the fiscal year spending (excluding bonded debt service) for fiscal years ended after December 31, 1994. At December 31, 2019, the District had the required 3% reserve of \$638, restricted for emergencies.

Under Tabor, the initial base for local government spending and revenue limits is December 31, 1992 fiscal year spending. The District's first year of operations ended December 31, 1995. Future spending and revenue limits are determined based on the prior year's fiscal year spending adjusted for inflation in the prior calendar year plus annual local growth. Fiscal year spending is generally defined as expenditures and reserve increases with certain exceptions. Revenue, if any, in excess of the fiscal year spending limit must be refunded in the next fiscal year unless voters approve retention of such revenue.

The District's management believes it is in compliance with the financial provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits, will require judicial interpretation.

On November 8, 1994, a majority of the District's electors authorized the District to collect and spend or retain all revenues through 1998 without regard to any limitations under TABOR.

On November 8, 1994, a majority of the District's electors authorized the District to increase taxes \$50,000 annually in 1996 and thereafter by the imposition of an ad valorem property tax levy which shall not exceed a total of 30 mills for the general operations of the District.

On May 5, 1998, a majority of the District's electors authorized the District to collect, keep and expend all District revenues received in 1998 and each year thereafter without regard to limitations under TABOR.

On May 5, 1998, a majority of the District's electors authorized the District to increase taxes \$12,500 annually in the first full fiscal year, upon real property proposed to be included into the District.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE I – CONSERVATION TRUST RESTRICTED FUNDS

The District receives lottery funds from the State of Colorado, which are restricted to recreational and related activities. The balance of these funds at December 31, 2018 was \$28,108. During 2019, the District received an additional \$8,982, but has not expended any of the funds, leaving funds available at December 31, 2019 of \$37,090 for future spending. This amount is presented in the General fund as fund balance restricted for conservation trust activities.

NOTE J – SUBSEQUENT EVENTS

During 2020 there was a worldwide pandemic from the Coronavirus. It is clear that there will be potential short and long-term effects from local to global economies. It is unclear what these effects will be for the District at the date of the auditor's report.
